THE MORMON TEMPLE
SALT LAKE CITY, UTAH

This is a massive structure of granite, 40 years in course of construction and estimated to have cost \$12,000,000, and was completed April 6th 1892. It has an extreme length of 186 feet, a width of 99 feet and with the towers covers an area of 21,850 square feet. The loftiest tower is 222 feet high and is surmounted by a statue of the Angel Maroni, 12 feet high, made of hammered copper and plated with gold leaf.

Mrs Pharo. - If any mail comes to the mail box, will you please forward it to the above address, and oblige to you, never mind sending me my Magazine of Mysteries. I told Georgie he could keep it. my ankle is very sore yet.
Answer soon. Yours. From
R. E. Dowling.
